

Tax declarations are complicated, time-consuming and no one really understands them. [Wundertax](#) is on a mission to change that: We are a tax tech startup based in Berlin. The company was founded in October 2015 by David Czaniecki (CEO) and currently employs around 25 people. wundertax offers specialized online tax declarations for a wide variety of people and professional groups. In addition to its main platform [steuererklaerung.de](#), wundertax among others offers tax tools for students ([studentensteuererklaerung.de](#)) or expats ([germantaxes.de](#)). Focusing on the tax needs and requirements of individual audiences minimizes the burden of creating a tax declaration for those users. For wundertax, the main goal is to enable users to make their own tax declarations as simply as possible and to maximize the tax refunds they receive.

We are looking for a talented communicator to join our team as Business Intelligence Manager (f/m):
