

Front-end Developer (m/f)

You can get a lot of money back with tax declarations, but it's complicated, time-consuming and no one really understands them. We are on a mission to change that: With specialized tax tools and modern UX, we are currently reinventing the whole tax industry. We are looking for a Front-End Developer to start immediately in our cosy loft in the center of Kreuzberg, Berlin

What is expected from you

- Work side by side with the best engineers in a continuous deployment workflow
- Implement front end solutions using HTML5, CSS3, Less/SASS
- To have a strong knowledge of SEO and responsive techniques
- Be able to develop a SPA in one of these frameworks: React, Angular or Vue
- Write unit testing and end to end testing for your code
- Participation on Open Source projects
- To be active in the development community (forums, mailing lists, meetups, blogs etc.).
- Experience with programming in other languages like: Ruby, Python, C#

What is required

- +3 years of experience
- English (work proficiency)
- College Degree in Computer Science or related areas (for the work visa process)
- Availability to move to Berlin

What do we offer

- We work together as a team: knowledge & experience is shared all the time
- We believe that a diverse team will create a better product
- We improve our code quality day by day
- We base our decisions on quantitative and qualitative data
- We believe in a healthy work-life balance

Sounds good? Send us an email with your CV/LinkedIn, GitHub profile and Skype/Hangout account and your availability for a video conference (Berlin time). We reply fast. Please send your mail to jobs@wundertax.de. We especially encourage people from underrepresented groups to join us
